Tongan rheumatic fever co-design initiative

Rheumatic fever posters

Introduction

The following posters have been created as a medium for sharing knowledge with kāinga. They distill some of the key messages that kāinga wanted, or needed, to hear from other kāinga who have also experienced rheumatic fever. Through the use of imagery and stories, the posters show kāinga that they are not alone.

The posters can be shared by young people, their families, and other stakeholders via social media.

KNOWING WHY, WHAT,
WHERE AND HOW
the medicine works is helpful.
Sometimes they think we
know because we get the shot
every month.

I AM NOT ALONE

*it's nice to hear other mums on the same
journey with the same struggles.*

*When other kids ask about
my scar I tell them that*
I AM IRON MAN.

*I used to be shy about it
especially at the pools.*

*Faith is fundamental for healing,
especially if you're Tongan.*

'OFA, TUI MOE 'AMANAKI

*Love, faith and hope with God
at the center got us through as
a family.*
