It’s time to get tested

GetTestedNZ is New Zealand’s national **online** STI testing service.

If you don’t have symptoms, you can use GetTestedNZ to request a free STI test for:

- Chlamydia
- Gonorrhoea
- HIV
- Syphilis

Tests can be sent to your home or to an address that works best for you. Or, you can sort the paperwork online and go directly to a laboratory to take a test there.

Lots of STIs don’t have symptoms, so people don’t know they have them and don’t get treated quickly. This can lead to serious health problems. Get tested regularly to look after your health – and the health of your whānau, sexual contacts and partners.
