

SYPHILIS AIN'T IT

**IF YOU'RE
HAVING SEX,
GET TESTED.**

**Syphilis is in our community.
It can be passed on to sexual
partners and unborn children
and that ain't cute.**

But detection means protection for
you and your whānau. You may have no
symptoms, but if you're gettin it, ask for
a quick blood test.

GET TESTED.

Find out where to
get tested here:
